HIBERNIANS.

H., on Sunday evening, in Foresters' hall, at which the 43rd anniversary of the division is to be celebrated. A committee, consisting of Michael Dewire, Daniel J. DEGREE OF POCAHONTAS.
Sebequonah council, No. 11, held their regular meeting on Monday evening with a large attendance. All business of the order was done and reports were read by the delegates that attended the Grand Sun Council in Bridgeport. After the close of the meeting games were played and prizes were awarded to Mrs. Mary Mueller, Mrs. Della Bailey, and Mrs. Mary L. Butler. A social hour was spent. The outlook is prosperous for the winter, and the order is in good condition. They have a good sum in the treasury, and expect to have a successful year.

KNIGHTS OF COLUMBUS.
The largest attended meeting of the order was held by White Cross council, No. 13, K. of C., in Pythian hall, Friday evening last week. It was the opening of a new year for the council, and was marked by the installation of the new board of officers, the ceremonies being under the direction of Past State Deputy M. J. Sullivan of New London as installing officer, assisted by P. F. Dray, grand knight of Seaside council of New London. The following officers were installed: G. K. J. Edwards, D. C. G. K. Dray, P. McNamara, Chan—Charles V. James, Rec. Sec.—John M. Lee, Flu. Sec.—Patrick Sullivan, Treas.—Dr. T. J. Crowley, Chap.—Rev. J. J. Concoran, Adv.—Dr. E. J. Brophy, W.—John L. Concoran, I. G.—Edward J. Kilday, O. G.—John H. Craney, Trus.—W. P. McGarry.

Henry D. Buckley, the retiring grand knight, briefly reviewed the progress that had been made during the past year, and thanked the members for their cooperation in making his administration the most progressive since the installation of the council. Plans for the coming year were discussed and an extensive programme was outlined. A committee was appointed to make arrangements for the annual ball of the council.

State Advocate J. J. Collins of New London was in attendance, occupying a seat on the platform, and complimented the council on the splendid progress it is making.

MOOSE.
The Mooseheart Governors, created since the last session of the Supreme lodge by the Supreme council, L. O. O. B., make their first report to the Supreme council and Supreme convention in a 25 page book entitled Mooseheart. The book is not only a report but is a history as well. They make their report with the firm belief that they have at last brought educational and home establishment on a real basis.

Although the first lodge of the Loyal Order of Moose was organized in Louisville, Ky., in 1888, the order languished for 81 years at which time its career as undertaken by James J. Davis in 1869. The order was revived when Mr. Davis was initiated as a Moose on the 27th day of October 1869. He was the 24th member of the order, whose adherents were scattered in three feeble lodges. His vigorous activity and remarkable organizing efficiency, as well as the expenditure of all his private funds, soon brought the order into prominence that at the present time the 1800 subordinate lodges number a splendid army of 550,000 dedicated to peace on earth and good will to men.

These lodges are thickly organized all over the United States and Canada.

ads as far north as Nome, Alaska, and two in Panama. There is a thriving lodge of over 1000 members in Honolulu making five in the Hawaiian Islands, and one in Manila. The order has recently registered in South Africa and the active promotion of the lodges will be enforced as soon as the present commercial and labor depression is adjusted to the progress of that region. The order is also legally registered in Germany with lodge No. 1,000, in Berlin in process of organization.

In the year 1811 the supreme lodge organized the Junior Order of Moose, for young men between the ages of 14 and 21 years. The Junior Order of Moose is not merely a young men's association but an educational institution responding to the progressive ideas of the Loyal Order of Moose, in its aspirations to become a factor in the mental, moral and physical training of young people.

Order hinges on the Mooseheart idea which has become the absorbing interest of the order in the last two years. The present census of all Mooseheart lodges with its allied associations is rapidly approaching 600,000. The great stirring principles of the L. O. O. M. are contained in its leading words, Purity and Progress. The leading principles of the L. O. O. M. are expressed in the names of the stations of the various lodge officers: Love, Ambition, Truth and Self Control.

The leading principles of the Woman's circle are Wisdom, Loyalty, Mercy and charity. While the L. O. O. M. has all the features of other fraternities, such as sick, accident and funeral benefits it has also taken a forward step in founding a great school for the education of the children of its members.

This movement toward a great university was first suggested at the Baltimore convention of the Supreme lodge in 1911. At that convention a commission was appointed to secure a site for such an institution and to propose to the Supreme lodge a plan of organization for the development of an industrial-vocational school. This commission undertook its task with more than an ordinary sense of conscientiousness. Many sites were proposed and finally the commission decided upon the purchase of a large estate in the Fox River Valley, twenty-seven miles west of Chicago.

During the first month following the purchase of Mooseheart in March 1913, very little was accomplished in the work of erecting permanent buildings and preparing for the large farm for an institution that was designed ultimately to house three to four thousand students. It was not until the Cincinnati convention of the L. O. O. M. in July 1913 that a permanent organization for Mooseheart was reached. A board of governors which consisted of seven members had been appointed by the Supreme council of the L. O. O. M. This board has since that time has been working for the development of everything pertaining to Mooseheart.

The social life at Mooseheart is in fine state of progress. The system of government at Mooseheart is original and unique. That means that the whole student life is developed controlled and directed by the students. This assembly consists of all the children with all those who have anything to do with the Mooseheart wards. The assembly meets every day for an hour before supper when the day's work is over. It makes all the rules pertaining to student life, hears all the complaints and dominates the school. It is a democratic and a noble thing. The object of the whole system is to teach to all Mooseheart people the important lesson of self-government and self-control. Thus far the system has proved itself satisfactory. Not a child received at Mooseheart has refused to come into cordial, kindly, helpful cooperation with the assembly form of government. No officer, teacher or attendant ministers any punishment. Every offense is reported to the assembly. The assembly has ordered that there shall be no corporal punishment. It has banished the rod, whip, switch, strap, ruler, boxing of ears, slapping of faces, knocking of hands and all the unnatural forms of punishment. The assembly always studies to form its decision on the great divine principle in nature an adumbral life, that "whatsoever a man sows that shall he also reap." The school is a reform school. The children come from the homes of the average citizenry. They are not slum products. They are young people representing that great class of self-respecting middle class of our present-day American life.

FAREWELL TO NEWSPAPERMAN
Given to Herbert S. Underwood by His Associates in Boston.

Twenty-five newspapermen turned out at the City club, Boston, Tuesday night to pass a toast to Herbert S. Underwood, who has just resigned on the Herald to go to Arizona.

Boston's newspaper history for 25 years was passed in rapid review by the speakers. John J. O'Callaghan, secretary of the Boston street commission, was one of Mr. Underwood's first city editors, served as master. Each man in turn told his experience as a reporter under Mr. Underwood. The list included Charles F. Gettemy, now director of the Bureau of statistics; G. L. Burgess, secretary of the Boston school committee; Julian D. Dillaby, of the secretary of state's office; Bert Smalley, of the Boston Brewing company, and F. W. Buxton, of the E. T. Slattery company.

In addition, various public men bore testimony to the great value of the work which Mr. Underwood has done in civic matters. Letters came from the two senators, from Curtis Guild, Samuel W. McCall and John A. Sullivan.

Mr. Underwood is well known in Norwich, having married Miss Mary Lanman of Norwich Town.

Attempted Shooting.
Thursday night at several members of the Yantic Steam Fire Engine company were leaving the hall they heard the report of a pistol coming from the direction of the station. A hole through the building gave further evidence of the shooting.

Thursday the canal was completely frozen over to a depth of fully one-half inch, for the first time this season. The ice remained on until 9 o'clock.

You spend lots of time in bed—have a nice easy one.

Dear Amy:

Everyone should go to bed happy and get up happy. Then they'll work better and earn more. I feel truly sorry for people who are able, but either too stingy or too careless to buy beautiful beds and bedroom furniture.

John goes to his bed humming a tune and gets up whistling. I have such a nice room for him. That's why he is such a success in business.

With love,
Lou.
